

Help us with our needs please!

- * Listen to our parents, carers and other professionals, they know us well.
- * Use timetables and visual prompts so we know what we are going to be doing throughout our day.
- * We may need motivators and we respond to praise and reward.
- * Don't make our tasks too big, break them down into small tasks, so we don't get overwhelmed.
- * Encourage us to be independent.
- * Use social stories to help us understand social skills, read them with us lots of times to help us remember.
- * Structure our day and keep our learning pacey.
